

Community Garden Program Launch: Garden Lunch

Sunraysia Community Health Service in collaboration with Sunraysia Mallee Ethnic Communities, and the Sunraysia Sustainability Network would like to invite you to the launch of our Garden Lunch program.

The program is targeted at young adult male refugees living in Mildura. The Garden Lunch Program offers a chance for conversational English and the gaining of skills, knowledge and purposeful occupation in gardening and food preparation. SCHS have a plot in the Mildura Eco Village Community Garden which is already offering an abundance of fresh produce that will then be used to prepare and share a weekly meal at the Eco Village Community Eco House.

We would love you to come and see our garden and share a light lunch with us

Wednesday 11th March 2015, drop in between 12.30-2pm

At the Mildura Eco Village 15 Scherger Drive, just past Around Again at the Mildura Landfill off Ontario Avenue.

We will be serving dishes which represent a sample of the recipes that the Garden Lunch group will prepare over the year.

Please RSVP to Fiona Wilkie at SCHS on either 50225444 or dietstudent@schs.com.au by Friday 6th March 2015
